

Honda Accord 2023

Safety features

The base model has a 192-horsepower engine, 17-inch wheels, and the Honda Sensing suite of active safety features. Higher trim levels have features like wireless charging pads, a 12.3-inch touchscreen, and a 10.3-inch digital instrument cluster. The 2023 Accord also has a front camera system with a 90-degree field of view and a wider angle radar with a 120-degree view.

Connectivity technology

All trims have a telematics control unit that supports automatic collision notification, stolen vehicle locator with immobilization, and in-vehicle Wi-Fi hotspot capability.

Audio features

The base model has a four-speaker audio system. Higher trim levels have features like wireless Apple CarPlay and Android Auto, and a 12.3-inch touchscreen.

Other features

The 2023 Accord has a 7-inch touchscreen, smart entry, remote start, and dual-zone automatic climate control. The LX trim also has heated front seats, a one-touch power moonroof with tilt feature, and a driver's seat with 10-way power adjustment.
